

ROMAN FOOTBALL ASSOCIATION

Partnership Programme

As a sport and association in its infancy, we're currently on a recruitment drive to find partner clubs who are interested in offering their members and coaches opportunity to be involved in the game

What this means for you

As an Association Partner, you would become a point of entry for players to join the association and participate in training sessions and matches. Your club would be displayed on our website as an official Partner; all players will be associated to their entry club across all marketing material and broadcasting events and we would direct prospective players to their nearest club for association membership.

Registration to the RFA will be exclusively through a partner club. You will receive a portion of any revenue generated through your player participation for the entirety of their involvement in the league. The more players come through your club, the more visibility for you and the more potential future revenue

GET INVOLVED

There is no financial commitment on your part! We are entirely self sufficient and will be driving prospective players to you for registration; publicising your brand through marketing material, and offering you a percentage of future player revenue on a tiered system

As a recruitment initiative, all we ask is for a scheduled meeting with interested members of your club where we will be presenting the RFA, the sport and the long term plan. Once completed, we will certify you as a partner, publish you on our website and begin driving the traffic towards you
